Dr. Jane Henney, Commissioner
U.S. FDA
5600 Fishers Lane
Room 1471
Rockville, MD 20857

Dear Dr. Henney:

I am concerned about the routine use of human antibiotics in animal feeds. This contributes to human resistance of antibiotics and has far-reaching negative effects which are only now being realized. The current overuse of antibiotics both in human medicine and in animal feeds must be quickly curtailed.

I urge the FDA to strengthen its proposal on limiting new uses of antibiotics in agriculture and to ban the use of human antibiotics in animal feeds. Thank you.

Sincerely,

Susan Williams
